INTRODUCTION & ORDERING

your enquiry

We will be delighted to quote any requirement from a single chair to a full turnkey project package.

Discounts are available for volume orders or for customers who regularly order smaller quantities. Setting up an account with Craftwork is straightforward and saves you money from the first day of trading.

to order

Please send your order through by letter, email or fax detailing for each product -

- Name of product, wood colour, fabric design, seat height (on chairs), size and leg type (on tables)

And for your organisation –

- Delivery address, invoice address, contact name / tel.no. (purchaser), contact name / tel.no. (recipient), delivery requirements

order acknowledgement

Once an order has been processed, an order acknowledgement is sent to you by post.

Generally order acknowledgements are sent the day after the order has been received.

Please check the order acknowledgement carefully on receipt.

payment

Payment is either on account or on proforma invoice issued with the order acknowledgement.

Payment may be made by cheque or by bank transfer.

delivery arrangements

A variety of delivery arrangements are available with deliveries made on a tailgate, nearest room or placement basis. Our sales office will be happy to quote for your specific requirements

seat heights

We offer a range of seat heights from 410 - 510mm on most of our chairs. Ask our sales office for details.

pressure relief

All chairs can be provided with Reflexion pressure relief seat foams as an optional extra.

fabrics

We can supply a huge range of fabrics in price ranges to suit any pocket. We will work on a COM (Customers Own Material) basis and are happy to upholster in multiple fabrics, with contrast piping or with contrast seats. See page 34 for details of our range of upholstery finishes

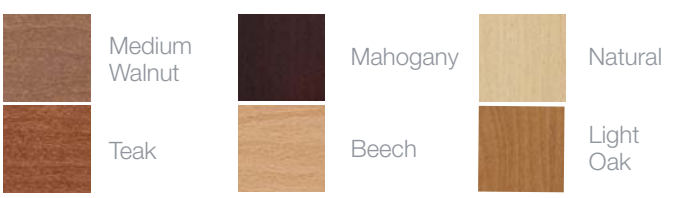
wood colours

We offer a range of 6 standard wood colours on chairs, sofa's and tables and will colour match to customers existing furniture on request. These colours are given (approximately) below.

On cabinet furniture we offer 3 colours - light oak, beech and maple (see pages 44 - 55)

We have measured the LRV's (Light Reflectance Values) of all our wood shades for use in designing schemes where colour contrast is important. Further information on these is available from our sales office

Wood colour samples are available from the sales office on request.



t : 0113 290 7939 w : craftworkupholstery.com e : sales@craftworkupholstery.com

value for money

We keep it simple. We manufacture in our Leeds factory and don't employ an extensive sales force or run a large marketing budget. This allows us to keep our costs down and means our customers can benefit from buying high quality products at exceptional prices.

nhs framework supplier

We are framework suppliers to the NHS on contract FAG15347 for ward and residential furniture and on contract FAG420 for mental health furniture.

flame retardancy

All our furniture is suitable for medium hazard areas as defined by BS7176. We use only contract grade CMHR foams and use fabrics which comply with BS 5852 crib5 as standard. We can produce furniture suitable for high hazard areas with crib7 testing if required.

chair frames

Our frames are made from air or kiln dryed European hard wood sourced from sustainably managed forests. We do not use softwoods or chipboards. Upholstered frames are constructed from glued, screwed and dowelled components. Show wood frames utilise comb and mortice & tenon joints for strength.

cabinet furniture and tables

We manufacture in contract grade MFC, MF-MDF, HPL and beech veneer MDF. Cabinet drawers are metabox construction and carcass thickness a minimum of 18mm. See cabinet and tables section for further information.

chair finishes

We use Medicote wood lacquer on all our sprayed finishes. This contains antibacterial agents to fight a wide range of bacteria including MRSA and Salmonella. All spraying is carried out to BS 6250 severe contract standard and involves 2 - 3 layers of lacquer to provide the ultra tough finish we demand.

sustainability

Our site is accredited under the FSC chain of custody standard, certificate SA-COC-002991. The chain of custody system ensures manufacturers source wood from sustainable sources.

quality

We have been registered with the ISO9001:2008 quality standard since 2007. We test our chairs to BS EN 15373:2007 our tables to BS EN 15372/2 and our cabinet furniture to BS 4875-7/4. Every item of furniture we produce is inspected at each stage of the manufacturing process and again before dispatch. Each craftsman signs off his work on a quality assurance slip that stays with the product all its life. A works reference number, on the same slip, provides full traceability.

symbols key

The following symbols are used throughout the brochure to show the availability of variations on the product shown or to highlight product features:

≠ loose cover / sofa bed

extreme

⁎ loose / fixed seat cushion

versatile & traditional

The Deepdale is a versatile range of show wood chairs featured with our best selling Alexander Queen Ann chair and it's mid back variation, the Claremont. The Claremont is shown with faux leather arms, and the Kirkstall Mid Back with a contrast seat cushion. See page 34 for more details of upholstery options.

The Cheshire, Pudsey and Kirkstall offer variations on a traditional design, while the Fairhaven, Blenheim and Duchy are higher specification chairs for your own country house hotel.

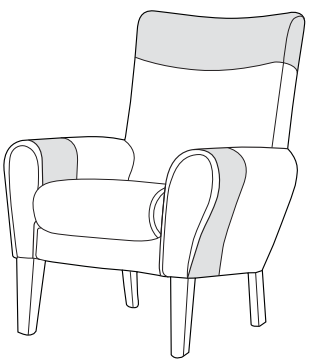
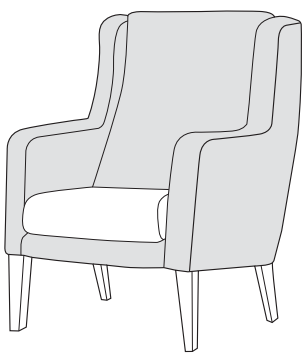
UPHOLSTERY OPTIONS

choice

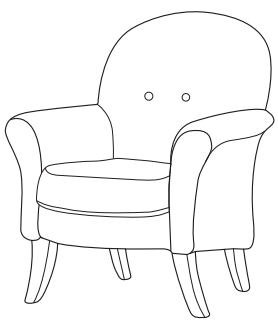
There are dozens of ways we can upholster our chairs to give your scheme the look and durability you require. These are just a few examples. Our sales office will be able to give you more information and tell you which of these options work with your chosen chairs.



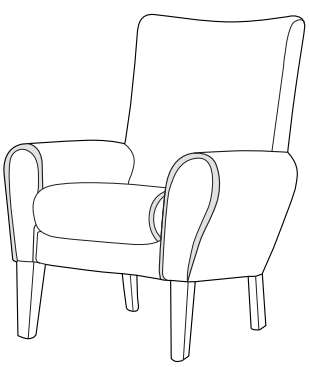
Dual Fabrics
Uses a more durable fabric or faux leather on areas of high wear such as arms.



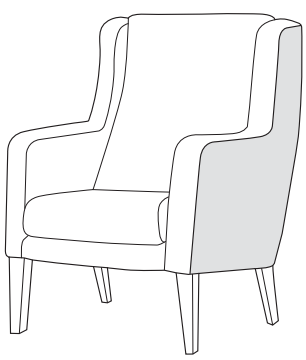
Contrast Cushions
Increase your choice by using healthcare fabrics on just the seat cushion.



Button Back



Contrast Piping
Looks good and can be useful for the partially sighted.



Contrast Sides
Adds interest to the scheme.

TABLES

Standard veneer top with rounded profile

HPL top with bull nose profile

hard wearing

Our wide range of tables are available with standard tops (beech veneer on an 18mm MDF core) or HPL tops (high pressure laminate on 18mm MDF core). The latter is ideal for more demanding situations. Tops can be supplied round, square, rectangular 'D' ended or oval to a range of standard sizes as shown on page 43. All 4 legged tables are available with square, square taper, round taper or cabrio legs. Queen Ann legs are also available on 4 legged coffee tables. Rails can be cut away for wheelchair access.

Our Extreme tables feature oversize legs and rails, and reinforced joints for outstanding strength.

Removable, reversible seat cushion

The seat cushion on all Cambridge Chairs is removable. Reversing the seat changes the seat depth to ensure an ergonomic sit. A seat depth of either 490mm or 525mm can be selected this way

This reversibility also prolongs the life of the seat cushion by evening out the wear

Images across illustrate the variable seat depth.

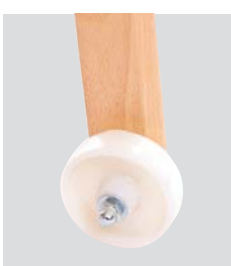
Curved, rounded, ergonomic arm

Designed for patient comfort with a rounded top surface and protruding easy grip arms to ensure it is as easy as possible for the patient to raise or lower themselves from this chair.

Drop arms

A four position rigid drop arm to fit all Cambridge chairs.
The lowest position sits below the height of the seat cushion to allow easy patient transfer.

Housekeeping Wheels



Optional extra on Cambridge Chairs

A simple robust housekeeping wheel for all Cambridge chairs

The base of the leg is chamfered to ensure the chair travels easily on these wheels when tilted.

Chair height indication stickers

A three colour system to indicate seat height –

Red	510mm
Yellow	460mm
Green	410mm

The sticker also shows the weight restriction on the chair.

Medium Risk Pressure Relief Cushion

Optional extra on Cambridge Chairs

The seat cushion is made up of a layer of Reflexion pressure relief seat foam over a Reflex foam base

The Reflexion layer provides malleable pressure relief while the Reflex base ensures sufficient firmness to avoid the foam bottoming out with prolonged sitting.

The Reflexion layer is wrapped around the front and back (as the seat is reversible) to provide pressure relief to the backs of the legs of the patient.

Height Adjusters

Optional extra on Cambridge Chairs

Easy to operate, robust, height adjusters vary the height of the chair by 100mm in 5 steps

We supply chairs with a standard range of 410-510mm. Please specify the range of heights required if you require anything different eg 390–490mm or 430–530mm etc.

HOSPITAL CABINETS

our hospital cabinets

Manufactured in 18mm MFC with MDF tops, drawers and door fronts.

Rounded polished edges for longevity and to avoid patient injury.

Cut away handles.

t : 0113 290 7939 w : craftworkupholstery.com e : sales@craftworkupholstery.com

Rounded polished corners on MDF tops, drawer and door fronts

Tops, drawer and door fronts are manufactured in MDF with edges polished to severe contract standard under BS 6250 to ensure a super tough finish.

Polished edges provide a high level of impact resistance verses conventionally edge banded MFC tops while rounding the corners improves patient safety.

Cut away handles remove the need for conventional protruding handles.

Strong flap mechanism with sunk hinges

Cabinets are supplied with a strong flap mechanism and sunk hinges to give easy access to the flap compartment.

Accessories

A towel rail can be provided as an optional extra.

A bowl holder can also be supplied as an optional extra

Lockers come with two keys as standard.

There are the following options of master key sets –

Up to 20 locker

20 – 50 lockers

50 + lockers

Drawer constructed with Metabox sides running on contract grade metal runners

The height of the metabox sides is 120mm to produce a generous drawer depth.

Side door supplied with two hinges

This overcomes the problem, when a piano hinge is used, of the door being ripped off the carcass if accidently leaned on while open

RECLINERS

total comfort

We offer 2 designs, Brunswick and Memphis, each in 4 formats; mechanical recliner, electrical recliner, single motor rise & recliner, dual motor rise & recliner. All recliners can be supplied with legs or heavy duty castors.
